STUDENTS’ DISCIPLESHIP CAMP

“Through this camp, I made friends from other campuses, I have learnt how to spend time with God in my quiet time and to be disciplined and excellent in my academics. I will teach my church youth and college mates all the things that I have learnt. I want to have an impact on my campus and country!” This kind of impact, as shared by Matthews from Natural Resources College, is what brings joy to us and indeed propels us to even do more.

Valentine’s Day found the Student Led Movement team on the beautiful shores of Lake Malawi in Salima. Forty (40) students from eight (8) campuses within Malawi enjoyed learning, swimming, eating fresh chambo fish and playing netball in the lake. Our hearts are overflowing with thankfulness to the Lord for the opportunity to journey with the youth of Malawi.

Twenty (20) of the students would like to travel to Kenya to attend a regional Students’ Mission Conference that will be held at Kenyatta University this April. This would impact them and the ministry here in Malawi for a life time!

Every Student, Every Campus, Every Nation

From the Students

"I enjoyed interacting with students from other campuses. The food was delicious. I have learnt how to have a quiet time and how to disciple others."
Malachi (African Bible College)

"Next time, let’s make the camp longer! The speakers were great. I enjoyed the talk on academic excellence. I have learnt to witness for Christ, how to study the bible and the importance of follow up."
Ruth Kapulula (Machinga TTC)

"I have learnt that historically, students have been instrumental in changing the world. I want to witness to others in the power of the Holy Spirit and leave the results to God."
Paul Manya (Assemblies of God University)

"I have enjoyed eating fresh chambo, swimming and meeting new people from other campuses. As a future teacher, I want to pass on the things I have learnt to my students. From this camp, I will share the gospel with my family, friends and freshman students on campus!"
Felicity Mwatibu (African Bible College)

"I enjoyed the group discipleship sessions, the morning physical exercise, and learning more about LIFE Ministry. I want to start a discipleship group and be more involved in evangelism."
Nelson Banda
